

## **Prince Jones**

By Kyra Anderson

He had big dreams, of following the path his mother led  
Gone too soon with big plans for his future  
And now, what his future would've held  
The world will never know  
The chance to see his family one more time  
A chance Jones would not get  
So close to the ones he loved  
But he would not make it before he was  
Hit by six bullets, in his driver seat, where he bled  
He'd only drove a short distance before he wrecked  
At the hospital he was later pronounced dead  
The man who killed him is one who's called to serve and protect  
But instead, was the one who posed a threat  
Jones was met with a tragic end  
Before his future would even begin  
September 1, 2000 is a day we can never forget
